Re: Industrial Waste
United Refining
Application No. PA0005304
APS ID No. 537008
City of Warren, Warren County

Dear Mr. Ruth:

We have prepared the enclosed draft National Pollutant Discharge Elimination System (NPDES) permit for review and comment. Please be advised that, pursuant to 25 Pa. Code §92a.75(b), any and all ongoing non-compliance issues will need to be resolved before the Department can issue United Refining Company a final NPDES permit.

Also enclosed are copies of a public notice that we will publish in the Pennsylvania Bulletin. You are required, by Department regulations, to post copies of this notice near the entrance to your property and near the discharge site. These postings shall remain for 30 days.

Please review the draft permit carefully. Your written comments on the draft permit, if received within 30 days of publication in the Pennsylvania Bulletin, will be considered during preparation of the final permit.

Sincerely,

Adam J. Pesek, E.I.T.
